

5 Celebrating Naïma at SPACE

The SPACE livestock show in Rennes, France, was the occasion to celebrate the 20th anniversary of the introduction of the Naïma sow on the French market. More than 150 customers and partners attended the event, with the theme “One Additional Born Alive = One Additional Piglet Weaned by the Mother”. The Naïma is the sow of choice for farmers who want a high level of prolificacy with impressive mothering abilities and a sow who is also easy to manage.
